

## Instructions: Loading and Unloading a Horse Cards

Below are several pages of steps for how to load and unload a horse. The steps for **loading** a horse are in **green** ink and **unloading** steps are in **red** ink. Print out one copy of these pages for each student in your study group. Print on heavy paper (card or cover stock). White paper is best as there are photos on the pages which probably won't show up very well on colored paper.

For each set, cut the steps into strips such that each step is separate from the others. Mix them up and have each student put the steps in order.

This exercise should be done after you have reviewed the steps using the Loading/Unloading worksheets. This exercise is done to confirm the students understanding.

Submitted by Shore Riders Pony Club

Load your tack, supplies,

and hang hay net

Get treat ready

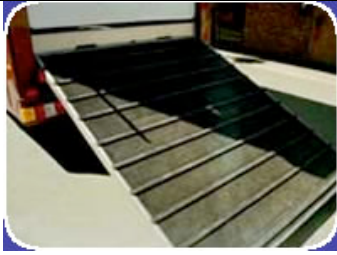

Open front  
exit door

Load Horse

Put up butt bar

Close/raise  
back door

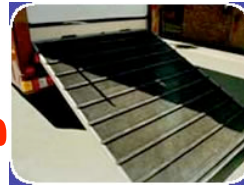

Tie Horse to front ring

Untie horse from  
front ring

Open/lower  
back door

Lower butt bar

Lead horse out

Unload your tack and  
supplies
