Canadian Pony Club

Centres Program April 2010 Handbook for Stable Owners

Mission Statement

The mission of The Canadian Pony Club (CPC) is to develop competent and knowledgeable young horse persons who combine enjoyment, responsibility, sportsmanship and good citizenship with the pursuit of various equestrian activities.

Vision Statement

Canadian Pony Club is committed to the vision ...

To provide the opportunity for every child in Canada to have a positive experience with horses, through providing opportunities:

- For Education
- To Learn responsibility, sportsmanship and good citizenship
- For Enjoyment and/or competitive success with horses

Our History

The Canadian Pony Club started in 1934 to teach the English style of riding and the proper care of horses. It is an offshoot of The Pony Club, which was created in 1929 as a junior branch of the Institute of the Horse in Great Britain. Since then, Pony Club has expanded to many countries around the world. The main purpose is to promote horsemanship, sportsmanship and leadership.

Our Guiding Beliefs

- ◆ Canadian Pony Club is an educational organization which progressively develops the well-rounded equestrian.
- ◆ The well-rounded equestrian is capable of riding safely and tactfully on the flat, over fences and in the open.
- ◆ Knowledgeable care of horses and ponies (Stable Management) is basic to the well-rounded equestrian
- ◆ CPC is committed to the well being of the horse.
- ◆ Fair and friendly competitions develop teamwork and sportsmanship.
- ◆ CPC requires parental and volunteer involvement and support.
- ◆ CPC is committed to safety.
- ◆ The local Branch is the core of CPC.

What is the Canadian Pony Club Program?

Stable Management

Stable Management is a part of every Branch's program. It is, in fact, the foundation of the organization. Stable Management involves learning how to properly and safely care for the health and well-being of horses and ponies: nutrition, veterinary care, cleaning a stall, setting up a tack room, bandaging for injury or travel, properly cleaning and caring for tack and equipment and more.

Riding Skills

The goal of CPC is to teach safe riding on the flat, over fences, and in the open. Thus, the core disciplines taught through the CPC program are Dressage, Show Jumping and Eventing.

Testing

When joining CPC, all members are unrated and designated as E level. Over time, as their knowledge and skills improve through lessons, they progress through the Canadian Pony Club Education & Testing system.

The traditional Pony Club Tests are taken at D through A levels. The Requirements and test sheets for each level can be found on our Web site in the Downloads section. Additional information is available in the CPC Testing Procedures and other materials available from Canadian Pony Club Supplies.

Branches and Riding Centres are responsible for organizing testings at the D through C1 levels. Centres must use examiners from the approved Regional Examiner's list and must obey all Regional and National Testing Rules. In some cases, this is done on a Regional basis. Examiners for testing must be drawn from outside the Riding Centre. The Area Coordinator, local Branch DC, Regional Testing Chair or Regional Chair can help identify local examiners.

Testings above the C1 level are facilitated on a regional basis and should be attended in cooperation with the Region. Clinics to prepare the candidates for the upper testings should also be hosted or attended in cooperation with the Region.

Canadian Pony Club Testing Levels

D Level – At this level, members are introduced to the fun and challenging world of riding. They begin to learn about the daily care of horses and tack. They also learn important lessons about riding and barn safety.

C and C1 Level – By the time members reach C-level, they can care for their horse and tack by themselves. They are also able to share their skills with other Pony Club members by assisting in teaching.

The following Upper Level Tests are facilitated on a Regional/National basis and require a greater depth of knowledge and proficiency than the earlier levels. Successful candidates are competent, all-around equestrians, active and contributing members of CPC, who participate in a variety of Pony Club activities. They are also thoughtful leaders who set an example for all levels.

C2 Level – The C2 level reflects a basis of competence in riding and horse care that will make possible a lifetime of pleasure with horses.

HB/B/B2 Level – Members at the B level are able to ride experienced mounts with confidence and control, and should be able to ride and care for another person's experienced mount, maintaining proper mental and physical condition without undoing any of the mount's education. The B understands and is able to explain the reasons for what he/she is doing and to contribute to the education of younger Pony Club members.

HA/RA Level – At this level, members demonstrate strong Stable Management skills. Members demonstrate the knowledge, experience and maturity to evaluate and care for a mount's needs efficiently and in a variety of circumstances, and to teach riding and horse care to others. "A" level members have attained the highest requirements in Pony Club. They display the ability to ride mounts at various levels of schooling with judgement, tact and effectiveness; to train young mounts; and to retrain spoiled mounts.

Stable Management Streaming is now in place for all levels. This allows a rider to proceed in Stable Management as a standalone testing.

Testings for Flat Ride and Stadium Jumping are also available at the higher levels. See the Testing Procedures for more information on both these programs.

Activities

Canadian Pony Club's basic belief in teaching horse care, riding and safety is teamed with a belief that riding should be fun and exciting. This being the case, many Pony Clubs and Riding Centres offer additional activities such as:

Badge Program, Camps, Dressage, Eventing, Hunting, PPG (Mounted Games), Polo, Polocrosse, Quiz, Show Jumping, Tetrathlon, and Trail Riding. Exploring additional aspects of riding and horse care is encouraged in education programs. (Reining, Endurance Riding, etc.)

Competitions

Most Regions hold Regional Championships or Finals in Dressage, Rally (Eventing), PPG, Show Jumping, Tetrathlon and Quiz. Quiz is the only activity that does not require horses.

Many Branches and Riding Centres also host small schooling shows, play days, clinics and practices for the various disciplines. Often they invite neighbouring Branches or Centres to join them.

Championships – National Championships are offered for PPG, Tetrathlon, Quiz, Show Jumping and Dressage. Championships provide talented members a chance to demonstrate their knowledge and skills as they compete with the best from other regions. It is hard work, a lot of fun and a great way to meet others who love horses, riding and Pony Club! At the National Level, riders may have to compete on horses and ponies provided by the host Region.

International opportunities are also available in Quiz, Mounted Games, Tetrathlon, and Inter Pacific Rally, with invitationals being offered in Hunting, Dressage and Show Jumping. Again riders compete on borrowed horses.

Safety

A concern for safety is one of the basic principles of CPC. Our guiding belief about safety reaches into every aspect of Pony Club, from our Manuals of Horsemanship sold in the CPC Supply Store to staffing requirements for organized activities.

CPC requires all members, regardless of age, to wear an ASTM/SEI approved safety helmet with a properly fitted harness.

Also, to ensure that CPC members have sufficient personal liability, all CPC members must belong to the Equine PSO where they live.

The CPC Risk Management Committee is responsible for promoting and overseeing safe practices for riding and working with horses. In addition, members of the Risk Management Committee are charged with educating both members and their parents in accident avoidance. The National Office keeps track of all falls associated with CPC activities.

For additional information about CPC safety requirements, contact the National Office at info@canadianponyclub.org or visit our web site to download specific documents.

What is a Canadian Pony Club Riding Centre?

A Pony Club Riding Centre is a legal entity (i.e., stable), which has been approved to provide mounted and unmounted instruction consistent with the established curriculum of The Canadian Pony Club.

The purpose of the CPC Riding Centre Program is to make the CPC membership and educational curriculum available to all equestrian families. Specifically, it is to allow Pony Club participation to young people (under the age of 21) who are interested in learning to ride and learn about the care of horses and ponies, and who may or may not have access to suitable horses or ponies or facilities to house their own or leased mounts.

The facility may offer the Pony Club curriculum in addition to its normal lesson/training business. Riding Centre Pony Club members may participate in CPC activities organized by the Riding Centre, the local Region or Branches, or another Riding Centre. Testing for the Riding Centre Pony Club member would be the same as those for a regular Pony Club member, and all testing levels will be possible for the Riding Centre Pony Club member to attempt. The amount charged for Pony Club lessons is determined by the Riding Centre. The cost of testing the lower levels (D-C1) may be determined by the Riding Centre provided it is organized by the Riding Centre. In most Regions, fees for examiners are mandated at the Regional level. The fees for Regional (C2 – B2) and National (A) Tests will be set by the Region and National respectively.

The facility will be visited by a CPC Area Coordinator or qualified designate, and if found to have an appropriate facility, with the administrative capacity to teach the required curriculum, such that it is accepted by CPC, it is awarded Riding Centre status. The CPC Area Coordinator or qualified designate will interface with CPC, help with the Riding Centre's startup, and answer questions the Riding Centre may have about CPC operations. The Area Coordinator or qualified designate will re-visit the Riding Centre periodically and is available for advice and assistance as necessary. The Centre is encouraged to seek support from the Regional Committees in the same way the Branches do.

What Must a Facility Offer to be Considered?

The basic requirements that must be met in order for a facility to be considered for participation in the Riding Centre Program are:

- ◆ Capability to offer solid basic instruction with the option of emphasis in one or more of the core disciplines of Dressage, Show Jumping, or Eventing. Centres are encouraged to offer opportunities in all three disciplines but it is accepted that all facilities may not be able to offer training in all three disciplines. Having a specialty in one riding discipline may provide valuable opportunities to neighbouring branches.
- ◆ Clean, safe, well run stable with suitable barn space and riding space to safely teach the PC program.
- ◆ Ability to administer the Pony Club program. (Administrative support staff or experienced volunteers)
- ◆ Ability to provide proof of insurance with the following minimum conditions:
 - Limit of Liability per occurrence \$2,000,000 (minimum)
 - Broad Form Property Damage
 - Bodily Injury including Participants - Limit per activity \$2,000,000 (minimum)
 - Cross Liability
 - Non-owned Automobile
 - Tenants Legal Liability - Limit \$1,000,000.
 - Additional Insureds with respect to Liability arising out of the operations of the named insured are Canadian Pony Club (CPC) and it's affiliate Regional and local clubs, CPC Officials, Stewards, Course Designers, Volunteers
 - Waiver of subrogation clause against Canadian Pony Club
- ◆ Able to produce and maintain a minimum of five Pony Club members.
- ◆ Provide instruction and practices that are in line with Pony Club philosophy.

What are the Benefits of the CPC Riding Centre Program?

The facility will benefit by advertising the Pony Club Riding Centre Program and capitalizing on the worldwide name recognition and reputation of excellence of "Pony Club." This may lead to increased enrollment and retention of students, and these select stables may charge a premium for the Pony Club lesson program. In addition, Riding Centres are listed in Canadian Pony Club publications and on the CPC Web site, and are included with clubs in the referral of potential members. Centre members may compete in all Regional Shows and Championships, providing that the members meet all requirements and standards set by the Region.

Centre members who wish to attend Regional activities (including testing) may be required to provide volunteers to help organize and/or run the activity.

Standardized Proven Curriculum

Requirements for Testing – CPC has established Requirements for Testing within the framework of the International Pony Club movement as the curriculum for a program of instruction and testing of its members. This educational program is designed to guide youngsters from the most rudimentary ability to lead a pony/horse through progressively higher levels of Stable Management and equestrian skill. It also provides a testing system for recognizing achievement as the youth masters the Requirements.

Rider level equivalency with EC

C2's equivalent to new Rider 6

B's equivalent to new Rider 8

A's equivalent to Learn to Teach, Mentoring, Evaluation and the Assessment or exam, providing an EC Course Conductor was on the panel. Successful "A's" must apply to Equine Canada within one year of achieving their full A.

The two programs work well together. Your rider is never without achievable, measurable goals in stable management, general knowledge and riding skill (that can become discipline specific in competition).

Achievement Badges – This program was designed to develop a sense of achievement in between testings for members working at all levels, especially D and C. It also gives instructors another tool to teach basic knowledge of horse care and riding skills. It is available for participation by all Canadian Pony Club members. There are currently over 75 badges available including riding, stable management and Regional, National and International achievements.

Leadership opportunities are many, from teaching assistant, to testing support, to learner officials.

Insurance:

Qualified and approved Centres may be able to acquire discounted insurance policy from the CPC Insurer.

How Do Individuals Become Members?

Clients of the Riding Centre, under 21 years of age, may join The Canadian Pony Club as a CPC Centre member. There are special circumstances that may allow members between 21 and 25 to remain in Canadian Pony Club as Affiliate members. Contact the National Office for criteria and restrictions.

The approved Riding Centre will give the potential member a CPC Pony Club Centre membership application. This application will be completed and returned to the Riding Centre with the appropriate National and Regional fee. The National fee is established from year to year by the National Board of Directors. The Regional fee is set by the Regional Committee. The Riding Centre will forward the CPC membership form and fee to the Regional Membership Chair.

Canadian Pony Club members must also be members of the Equine PSO in the province in which they reside. Equine PSO's in Canada allow for Pony Club members to purchase and renew provincial memberships early in order to facilitate processing well before our January 1st deadline. A photocopy of the membership card must accompany the CPC application. The membership will be valid when the completed application, fees and PSO Membership card are received at the CPC Regional Level. The Riding Centre membership will run through the end of the calendar year.

Upon receipt of the membership form and fee at the CPC National Office, the individual new member will be sent a packet consisting of:

- ◆ Parent's Guide
- ◆ Parent's Code of Conduct
- ◆ Pony Club Passport
- ◆ A welcome letter from the National Chair

What is the Process to Become a Riding Centre?

- Step 1 To become a CPC Riding Centre, the owner/operator of the facility must fill out the Application for Consideration and return it to the Regional Chair. The short application process will act as a means for CPC to verify that the facility meets the criteria required to provide quality equine training consistent with the CPC curriculum and standards. A minimum of five prospective youth members will be required to start a Canadian Pony Club Riding Centre program.
- Step 2 Upon receipt of the Application for Consideration, the Regional Chair will forward the Application to the designated Area Coordinator, who will be chosen by the Regional Committee. The Area Coordinator or designate will contact the facility to discuss the information on the Application and the viability of the CPC program operating at the facility. If the facility, the Regional Chair and the Area Coordinator (or designate) feel confident that a CPC program would be a suitable fit with the facility, a site visit would be set. Should the facility be found to be appropriate and have the administrative capacity to teach the required curriculum, the Area Coordinator would make a recommendation to the Regional Committee that they recommend to the CPC Board of Directors or Management Committee that CPC Riding Centre status be granted to the facility.
- Step 3 Following a recommendation from the Region to grant recognition, the Region will forward an unsigned one year contract to the facility for their signature. The contract is to be signed and returned to the Regional Chair who will forward all pertinent information to the National Office. Once the CPC National Office receives the properly executed contract and proof of insurance, the facility will be put forth to the CPC Board of Directors or Management Committee for recognition. Upon approval from the Board, a letter approving the facility and authorizing the Riding Centre to begin CPC activities will be sent to the facility.

Membership recruitment for the CPC program may begin after the letter of authorization has been received by the Riding Centre. The Area Coordinator will also schedule follow-up visits for continued program evaluation. Each subsequent year a new contract will be exercised.

In addition to the letter of authorization, the Riding Centre will be sent necessary reporting materials. Riding Centres will be listed in the CPC Annual Directory and on the CPC Web site. The Riding Centre will also receive a certificate to display, and may advertise participation in the CPC Riding Centre Program.

The CPC Area Coordinator or designate will interface with CPC, help with the Riding Centre's startup, and answer questions the Riding Centre may have about operations. The Area Coordinator will re-visit the Riding Centre periodically and is available for advice and assistance if required.

Centre Organization

A CPC Riding Centre will be required to name a Centre Administrator as a person to act as the point of contact for the CPC National Office, Regional Chair and Area Coordinator. The Centre Administrator will provide continuity and give parents and members an on-site person with whom they will work. Ideally, this person should have knowledge of Pony Club activities and requirements, and should be in contact with local Pony Club DC (if applicable), the Regional Chair, and Area Coordinator as required. The

Centre Administrator will be responsible for:

- ◆ Sending new membership forms as well as membership renewal forms to the CPC Regional Membership Chair, along with a copy of each member's PSO membership card.
- ◆ Forwarding the appropriate fees (Regional & National) to the CPC Regional Membership Chair.
- ◆ Organizing D – C1 Tests using the C/D Testing Procedures and approved Regional Examiners. If the Centre does not have the expertise or desire to organize a test, they may appeal for help from either the Regional Test Chair or a Branch Test Rep.
- ◆ Keeping records of testing and sending these to the CPC Regional Testing Chair.
- ◆ Maintaining and distributing information packets for parents and members.
- ◆ Coordinating Riding Centre instructor's attendance at Testing Clinics or Instructors Clinics when offered by the Region.

The Centre Administrator will interface with the CPC designated Area Coordinator and Regional Chair who reports to the National Office.

The CPC Riding Centre Program is meant to be a pay-as-you-go relationship between the riding stable's business and the client (i.e., Pony Club member).

Due to this relationship, there is no need for the Riding Centre to have a Pony Club bank account. In addition, the CPC not-for-profit status does not extend to the Riding Centre. Riding Centres will not be allowed to do any fundraising using the Pony Club name in any form (i.e., CPC, Pony Club, Riding Centre, Pony Club Riding Centre, CPC Riding Centre, etc.), or indicate that it is for the CPC Riding Centre members. They may participate in or offer fundraising shows and activities organized for and through the Region, provided that these shows must follow all PC rules and procedures

Centre Fees

Approved Centres will pay a \$100 Annual Fee or as determined from time to time by the National Board. A CPC Riding Centre is required to carry a minimum of \$2,000,000 commercial liability insurance and name The Canadian Pony Club as an additional insured.

Working with the Local Pony Club Branch

Riding Centre Pony Club members may visit neighboring CPC Branches as 'visiting' members by invitation and approval of both the Centre Administrator and the DC of the local Branch. If the Riding Centre has indoor activities during the winter, they may be happy to open them to the local Branch members. This would be done in collaboration with the local DC.

It is beneficial to both groups if the Riding Centre can develop a relationship with a local club, as examiners can be shared and unmounted trips to big events or other attractions, etc., can be combined to save costs and allow interaction of the members.

Further Questions?

Further information about the region and local clubs can be found in the Annual Directory, or may be found on the CPC Web site. Your Area Coordinator and Regional Chair are there to help with any questions or concerns regarding the Pony Club program. Please feel free to contact them. For further help or advice please do not hesitate to contact the CPC National Office at 1-800-286-7669 or email info@canadianponyclub.org.

Canadian Pony Club Riding Centre Application for Consideration

Yes, I'm interested in becoming a recognized Canadian Pony Club Riding Centre.

Contact Name: _____

Name of Riding Business: _____

Mailing Address: _____

Physical Address: _____

Phone: (_____) _____ **Fax:** (_____) _____

Email: _____ **Web site:** _____

# of lesson horses _____	# of lessons/week _____	# of potential Pony Club members _____
Please describe the facility:		
Area served:		
Any previous Pony Club experience? If so, explain.		

How many years has the riding lesson program been operating? _____

List your instructors and any credentials they may have. Use a separate sheet if necessary.

Name(s) of Riding Business Proprietor: _____

Signature of Riding Business Proprietor: _____

Following review/receipt of this Application for Centre Consideration, you will be contacted regarding further procedures.

Return to: Regional Chair

Please feel free to include any additional materials or information that describes your facility and its current program.
