

Remember:

\*At D through C2 levels, the SM phase must be attempted at the same time or before the other phases.

HB and HB2 levels must be attempted at the same time or before any riding level stream.

RA riding streams may be tested before, with or after the HA

\*Candidates may decide at any time to continue along the “flat” and/or “stadium jumping” stream, but to return to the traditional test stream, must then go back and **complete all untested phases in the “traditional” riding phases.**
